THE NEW ERA.

Newmarket, Friday May 1st, 1857.

General Summary.

From an advertisement in to-day's issue, it will be seen that Mr. Joseph Cartwright is selling off his large stock of Goods at reduced prices, and retiring from business.

"Veritas" forgave to send his name; and being a resident of Newmarket must have known our rule. If we cannot be trusted with the name of a correspondent, he cannot expect us to pay attention to his letters.

From our parliamentary report it will be seen that the member for North York has again introduced his Mechanics' bill, with some amendments. We shall probably be able to give our readers a synopsis of its provisions next week.

An adjourned meeting of the members of the Newmarket Mechanics' Institute takes place in the Temperance Hall this (Friday) evening. We hope to see every individual present who takes the slightest interest in its prosperity; as matters of considerable importance will be brought up for consideration.

Attention is directed to an advertisement from Mr. W. J. Liddell, teacher of the new and beautiful arts of Oriental Pearl Work, Green Oil Painting, Gold and Silver Lettering on Glass, Traceo Type, &c. The gentleman comes to this place highly recommended. Call at the Railroad Hotel and see specimens.

We omitted to acknowledge, last week, the receipt of a quantity of Maple Molasses, from our old friend on the Town line of King-Mt. John Black—really a prime sample. Also, the "Imp" at our office says we must not forget the wax supplied by the same gentleman to the typos. They say the donor has a "Black" name, but the "heat" of a "white" man. Printers generally are a curious lot of beings; but they won't forget a kindness.

Our attention during the week has been called to the personal language used by a correspondent, in our last issue, towards gentlemen of this locality. Had we then seen the writer as it appeared to us after seeing it in print, we should have struck it out. The writer had no occasion to allude to the residents of Newmarket, in dealing with his question whatever; and we can only say, that all communications, in future, of a personal character, will be excluded, and correspondents will have to govern themselves accordingly.

Our attention has been called to an inaccuracy in the report of last Meeting of East Grindellbury Council. After the paragraph stating that Mr. Stokes presented the petition, it should have read that Mr. Job Hughes and others contended the names were not inserted when they signed it; and that others as stoutly contended they were. The way the report read last week, Mr. J. C. Hogboom was left in the position of asserting what he could not prove; but Mr. Hughes supported the statement. We seldom give a report of differences—because a person unacquainted with the circumstances is apt to obtain a false idea of the real state of things. In the case above mentioned, we have no doubt but that both parties honestly believed them selves right; it is difficult, therefore to make a decision.

The Bogart Town Inquest.

An Inquest was held before Coronor Wilson, at Bogart Town, on the 15th ult., on view of the body of an infant, found in the tail-race of Bogart's Mill, two or three days before. Since then the matter has created considerable excitement; and we have therefore taken the pains to procure a copy of the evidence for publication, in order to put an stop to conjectures, suppositions and problematical guessings. After the Jury had been sworn, the first person examined was

James McComb, who being sworn, said—that on Sunday, the 12th of April he found the dead body of an infant, in the tail-race of the Mill at Bogart Town. Took the body and put it in a brass kettle. Told John Major of the circumstance that it was dead, and also his mother. Next day, told John Bogart's servant.

Joseph Bogart, sworn said—On the 13th of April he found in a brass-kettle, the body of an infant. Called his Miller, Mr. Peacock, and showed it to him. Next day he told his father, and he came with Dr. Pyne. They both saw the body. Defendant's Father went to Coronor and told him, who appointed to hold an inquest that day. Defendant took the body out of the kettle and buried it in the ground, in order that it might not be removed, as he was obliged to go away and he feared it might be taken out of the kettle in his absence. On his return he put the body back into the kettle. Emma Andrews, his servant girl, told him that she thought the head had been partially severed with a sharp instrument, and while the blood was fluid and the body warm. Thinks the immediate cause of death was cutting of the throat.

Dr. Thos. Pyne, re-examined, said he found it difficult to make up his mind that the child breathed. Believes gestation to have been the sixth month. Appearance of the neck would indicate that the head had been partially severed with a sharp instrument, and while the

blood was in a fluid state.

James Hunter being sworn, said, that he had fallen twice to the knowledge of defendant, some two or three weeks before the child must have been born. Subsequently she complained that she had suffered pain from the fall and exhibited a mark upon the arm where she had bruised it.

Dr. Hackett sworn, said, he thought the child might have breathed after being born. Thought it about a six months' child. Thought if the child had been born alive, the mother would have known it. The child might have died a fortnight before its birth. The mother could not have had two without knowing it. From the peculiar circumstances in which the mother was placed, the child might have been smothered without her knowing it.

Dr. Pyne sworn, said he concurred in the statement made by Dr. Hackett, but thinks from the appearance of the child found on the 12th, that it was still-born.

NEW ADVERTISEMENTS.

GREAT ENGLISH REMEDY.
The Most Valuable Spring and Summer Medicine in the World.

Dr. Hulsey's Forest Wine!

Patronized by the nobility and Medical Faculty of England, and esteemed the most extraordinary Medicine in the World.

MEDICINES containing molasses or liquorice, like the boasted Saraparillas, require many large bottles to procure the slightest change in health. The Forest Wine is altogether a different article. It contains no syrup to give consistency, but acquires its excellent flavor and powerful medicinal properties from the reliable plants of which it is composed. The Forest Wine combines the virtues of the Wild Cherry, Dandelion, Yellow Dock, and Saraparilla!

with other valuable plants whose properties are still more active.

Its high concentration renders it one of the most efficacious medicines now in use.

Sometimes less than a single bottle restores the languishing patient from weakness, debility, and sickness, strong and vigorous health.

Every dose shows good effects on the constitution, and improves the state of the health.

The Forest Wine is recommended, in the strongest terms, all complaints of the.

Stomach, Liver, Kidneys, Nervous, Disease of Appetite, Jaundice, Female Complaints, Scrofula, and all Disorders arising from BAD BLOOD and Impure Fluids of the System.

SAVED FROM DEATH!!!

Testimony of Mr. Nathan Mathews, a highly respectable and wealthy citizen of Newark.

Mr. G. W. HALSEY.—I believe your Forest Wine and pills have been the means of saving my life. When I commenced taking them, laid at the point of death, with Dropsy, Piles, and Asthma. My physicians had given me no hope of cure, and my family had lost all hope of my recovery. While in this dreadful situation, your Forest Wine and Pills were procured for me, and before I had finished the first bottle of Wine and Box of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. Hopes of my recovery began now to revive, and after continuing the use of your medicine for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was placed in such great danger, was also nearly gone. I have continued the use of your medicine until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age.

Yours, respectfully,

N. MATHEWS.

Newark, N. J., Dec. 19, 1817.

NERVOUS DISORDERS

Are diseases of the mind as well as of the body.

Are usually brought on by troubles and afflictions, and are most common to persons of delicate constitutions and sensitive minds.

Low spirits, melancholy, frightful dreams, and fearful anticipations of evil from the slightest causes, generally accompany nervous disorders.

The Forest Wine and Pills are an energetic remedy in these complaints.

Extract of a letter from Mr. Joseph C. Paulding, dated.

Philadelphia, September 7th, 1818.

Dr. G. W. HALSEY.

Dear Sir, your Forest Wine and Pills have cured my wife of a dreadful Nervous Disorder, with which she had been affected for many years. Her body was almost wasted away. She was frequently disturbed in her sleep by frightful dreams, awakening quite exhausted and covered with perspiration, and at times laboring under the delusion that something dreadful was about to happen to her. By the use of four bottles of the wine, and a box of Pills, she is now in perfect health. She has regained her flesh and color, and enjoys society as well as ever.

J. C. PAULDING.

Dr. DAVID MARTIN, a celebrated practitioner of New York, declared publicly, that one bottle of Hulsey's Forest Wine contained more virtues than fifty of the largest bottles of Saraparilla. Messrs. S. S. LAMPMAN & Co., one of the largest and most respectable Druggists in Syracuse, in a letter, say: "From what they have heard and seen of Hulsey's Forest Wine, it is an excellent and good medicine, and will undoubtedly become the leading medicine of the day."

The Forest Wine is put up in large square bottles, with Dr. Hulsey's name blown in the glass; \$1 per bottle, or six bottles for \$5—Gum-coated Pills, 25 Cents per box. Agents are authorized to retail, as well as wholesale, on as favorable conditions as the proprietor, No. 61 Walker St. New York.

M. W. BOGART, Agent, Newmarket, April 30, 1857.

Amusement.

A young woman was alighting from a stage coach when a piece of ribbon from her bonnet fell into the couch. "You have left your bow behind," said a lady passenger. "Oh, no, I have it; he's gone a walking," innocently replied the damsel; going on her way.

A Dutch member of the Pennsylvania Legislature having returned home from a session, was asked by a neighbour what had been done in the assembly. "I don't know what the others hasn't done, but I have cleared one hundred dollars for mine self."

A Good' un.—*Home Journal* says:—A friend tells us the following, which he considers a good 'un:

Being in a mechanic's shop the other day, an urchin came in, his dress covered with mud. His father observing his dirty plight, said to him—

"William my son, how came you to muddy your dress so?"

The boy stopped a moment, then looking his father in the eye, very obsequiously asked—

"Father, what am I made of?"

"Dust. The Bible says, 'Dust thou art, and unto dust shalt thou return.'"

"Well father, if I am dust, how can I help being muddy when it rains on me?"

"William, go down stairs and get some wood; start!"

It is said that the best way to keep a fowl fresh, is to make a hole in a potatoe and insert the stalk in it. A capital type of Irish eloquence.

SOMETHING FOR FARMERS!

ALEXANDER FLEURY.

DEGS respectfully to inform his friends, and

Dealers in general, that he is now manufac-

turing

GANG PLough,

which, for cheapness, durability and deep, cannot be surpassed. They will turn from six to

eight Acres per day, with one team. These Ploughs

can be seen at the shop of the subscriber, Lot No.

10, in the 2nd Con. of King.

All orders punctually attended to, (if by

letter post-paid, addressed to Mr. Fleury Post

Office). The Plough
